Who am I

Some people build for scale. Some for funding. I started at 15 for something simpler the look on someone's face when a problem they'd carried too long finally wasn't theirs anymore. That look is still the only metric that matters.

Education

Bachelor of Technology (B.Tech) — Information Technology
Maharaja Agrasen Institute of Technology, Delhi

Experience

Software Engineer - MicroKahani Pvt Ltd

Short-Form Video Platform — Web + Mobile

Nov 2025

[Website](#) [App](#)

- Designed OTT micro-drama platform that achieved 15M+ organic reach by building analytics pipelines, tracking high-traffic user behavior, optimizing content performance, and enabling data-driven growth decisions across distribution and playback systems.
- Led and managed a development team to build the platform end-to-end, coordinating backend, mobile, and infrastructure.

Software Developer — The Bookshelves

Jun 2025

- Led and collaborated with the development team to design and build backend services for a student-driven startup.
- Developed peer-to-peer engagement features and coordinated product demonstrations with the team.

Project Lead — Zeber

Jan 2023

- Led the technical team to design and develop core product features and platform architecture.
- Managed development workflows, organized technical demos, and drove community-focused initiatives.

Products

CodeSpirit
